PRIOR ART

A cross-sectional view of a multi-layered structure. It features a central cavity (3) surrounded by a thick, hatched frame (2). Within this frame, there are two vertical rectangular sections (1) and a central horizontal section (1) at the bottom. The entire structure is supported by a base layer (4). The top surface is also hatched. The central cavity (3) is defined by the inner walls of the frame (2) and the central horizontal section (1).

A cross-sectional view of a multi-layered structure. It features a central rectangular cavity (1) surrounded by a thick, multi-layered frame (2). The frame consists of several concentric layers, with the outermost layer having a diagonal hatching pattern. A bracket (3) indicates a specific layer within the frame. A small, textured region (4) is located at the bottom left corner of the frame.
